

GENERAL INFORMATION LEAFLET

Product Information: Unicoatings™ UC CLEANER

Unicoatings™ UC CLEANER is a general-purpose cleaning agent that can be used to:

- Effectively remove stubborn dirt of all kinds from a range of surfaces, including metal, concrete, stone, brick and glass
- Clean and prepare surfaces that are then to be treated with a coating system
- Clean and maintain the cleanliness of surfaces that have already been treated with a coating system

PROPERTIES

- A neutral special cleaner
- Accelerates the drying process by virtue of its hydrophobic effect
- Protects sensitive metals through a built-in corrosion inhibitor
- Highly concentrated to provide high yield and economic use
- Biologically degradable according to OECD regulations

APPLICATION

General purpose cleaning:

- Dilute with water in the ratio of 1:20; best results are achieved when using warm water of around 40°C
- Apply the product with a sponge, leave on the surface for 10 minutes, rinse with plenty of water using a sponge or brush

Preparation for coatings:

- Dilute with water in the ratio of 1:10; best results are achieved when using warm water of around 40°C
- Apply the product with a sponge, leave on the surface for 10 minutes, rinse with plenty of water and wipe dry with a lint-free cloth
- Apply your coating

Maintenance of coated surfaces:

- Dilute with water in the ratio of 1:30; best results are achieved when using warm water of around 40°C
- Apply the product with a soft sponge, leave on the surface for a maximum of 5 minutes and rinse with plenty of water
- Be careful not to apply with too much pressure or aggressively as you might damage the integrity of the coating

PACKAGING

UC CLEANER is available in 1kg bottles, 5kg canisters or 10kg canisters. For bulk orders please contact Unicoatings.

STORAGE

UC CLEANER can be stored for at least 24 months in its original packaging. Protect from frost and direct sunlight.

LABELLING / TRANSPORT

No dangerous goods according to ADR/RID/IMDG/IATA.

PHYSICAL HEALTH

UC CLEANER does not contain free nanoparticles that might be dangerous to health.

SAFETY / PROTECTION MEASURES

When using UC CLEANER please follow the instructions on the bottle / canister. The use of chemical preparations should only take place when the safety measures are observed and are always out of the reach of children. The technical information provided here is in accordance with the latest technical knowledge and composed from our own experience. In view of the many uses possible with UC CLEANER, it is therefore the responsibility of the user to act according to the given situation in respect of safety. As the use of this product takes place out of our jurisdiction, we have set out safety and protection measures, but we cannot be held responsible in any circumstances. For any misuse of the product we cannot be held responsible. In the event of a new version of this information becoming available, this information here set out is no longer valid.
